Hydraulic Couplings

Swivels

Lubricating Plugs

PRODUCT FEATURES

- **HIGH PRESSURE CAPACITY**
Compatible with all truck applications.
- **LOW PRESSURE DROP**
Optimum power transmission and less heat generation.
- **SAFETY LOCK RING**
Prevents unintentional disconnection of joint.
- **PRESSURE ELIMINATOR**
Relieves any pressure built up in lines (due to heat) for easy re-connection of coupling.
- **DOUBLE 'O' RING SEAL**
Provides leak proof seal at high pressures.

HYDRAULIC COUPLINGS

Designed for speedy and efficient connections of hydraulic hoses where equipment is interchanged, TEMA® quick release couplings offer the best solution for the transport industry.

Available in a full range of sizes, TEMA® quick release couplings provide self sealing hose ends or pressure eliminator options to prevent oil loss and ease of engagement.

Also available with ISO standard flat face mounts plus a range of options shown overleaf.
